EXPERIENCE

RBC | Full Stack Developer, Employee Mobile Apps

May 2019 – September 2019 | Toronto, ON

- Researched POCs for Siri voice integration into internal employee iOS apps and coded a demo in **Swift** showing the capabilities of Siri shortcuts within the internal RBC iOS apps
- Developed the pilot project Now Assistant, an omni-channel digital dashboard for senior executives within the bank, utilizing **Liquid/HTML** for front-end and **JavaScript/Node** for back-end
- Created and presented a product pitch/deck with my recommended solutions, risk findings and end to end development (**UI/UX, APIs, UAT, QA** etc.) for Now Assistant
- Worked in a cross-functional **Agile** team consisting of UI/UX designers, product owners, developers, QA analysts, and senior managers to code review in-house **Java** applications

RBC | Technical Systems Analyst, L1 Unix/Linux

September 2018 – January 2019 | Toronto, ON

- Implemented machine learning based modeling with **Elastic Stack** to detect operating system anomalies in data-center and customized front-end dashboards using **HTML** and **CSS**
- Assisted in developing dashboards using Grafana front end with InfluxDB and Graphite back-end to access the **MySQL/MariaDB** database and retrieve real time server metrics to report on the health of each global server's infrastructure
- Created data ingestion pipelines using Syslog and Logstash to aggregate and filter data for centralized logging
- Collaborated with **Linux** team to automate 20% of 10,000+ RHEL 5/6/7 servers using **RedHat Ansible**
- Wrote tools to simplify use of vendor diagnostic services (IBM, HP, Cisco) when performing systems analysis on Linux servers

Mastermind Toys | Supervisor (Part-Time), Sales Lead

May 2011 – Present | Toronto, ON

- Liaison between retail staff and corporate office working closely with the Store Manager
- Work efficiently under pressure to lead and manage a productive retail and sales team of 4-6 associates on shifts
- Assess and analyze data, and prepare and process documents/statistical summaries/reports and KPIs
- Assist with technical support and configuration of POS and other computer related issues
- Learned to quickly think on my feet and work efficiently when under pressure in a customer service-oriented role
